

ENVIRONMENTAL POLICY

TNB Energy Services Sdn. Bhd. (TNBES) is committed to protect the environment in all our services and comply to Environmental Quality Act 1974 [Act 127] and its Regulations together with any other relevant legislations in Malaysia.

Our sustainable commitments through Environmental, Social and Governance (ESG) inclusive, and not limited to:

- Develop and maintain a comprehensive environmental management system.
- Provide necessary and adequate resources in environmental management.
- Reduce carbon emissions and environmental adverse impacts as far as practicable in our services.

Environmental management is a shared responsibility at all levels from our management, employees, contractors to our suppliers. In respect of our services, we shall:

- Inculcate awareness to all personnel in promoting sustainability environmental practices.
- Comply to the Environmental Management System developed by the company.
- Use natural resources prudently for reducing the environmental impact.
- Investigate and correct all environmental non-compliances and incidents to prevent recurrence.
- Consult environmental issues with stakeholders and interested parties in order for ensuring optimum environmental performance of the company.

We record all environmental documentations as a part of our Environmental Management System which shall be implemented and improved from time to time.

“BETTER WORLD, BRIGHTER LIVES.”

Ir. IDRIS BIN MOHD NOOR
Managing Director
